

EDMONTON FUSILIERS SEEKS AFFILIATION

With Famous Old-Time British Regiments—Union of 10th and 11th Edmonton Fusiliers, With Munster Fusiliers, is likely to be consummated.

The affiliation of the 10th and 11th Edmonton Fusiliers, with that famous regiment, the Munster Fusiliers (the old-time 10th and 11th of the British army) is a project which the late commanding officer of the 10th regiment, Lieut.-Colonel E. H. Edwards, has set his heart upon and is likely to be consummated.

Colonel Edwards, of the 10th Battalion of the Royal Munster Fusiliers (1918) (regiment), to whom Colonel Edwards wrote, replies that officers in command of the various detachments of that regiment would welcome the proposed affiliation. Colonel Edwards further says he believes that the War Office would give approval to the scheme.

Lieut.-Colonel Edwards, colonel-in-chief of the Munster Fusiliers, is an old-timer as the Dominion, in having been here during the rebellion of '45, also writes, saying he would be pleased to see the affiliation take effect. Meanwhile, Colonel Edwards has communicated with the War Office, making formal request for the affiliation to be made at Ottawa.

The Munster Fusiliers, as has been indicated, includes the old 10th (Royal Fusiliers) and the old 11th (The Buffs). The introduction of the army "territorial system" has led much confusion with regard to these and many other historic regimental names.

Many Canadian militia regiments affiliate with the connection with these regiments in the British army which used to hold corresponding numbers and this identification is said to be productive of much good in the younger corps. In the case of our local body, the association with a corps that has been in the very thick of the fighting may reasonably be expected to increase that "esprit de corps" that is so absolutely necessary. Should this affiliation be carried through, the union will also affect the 14th Canadian militia regiment, at West Westminster, B.C., who will, in fact, be in a sense on the 10th and 11th, with all the privileges that such a union entails.

Billings-Parker Stamp.
Ottawa, Jan. 12.—The question of having a billings-Parker stamp is under consideration here by the post office department. It has not yet been definitely determined, and it is understood that the King's crown will have to be obtained, as in the case of the "soldier" stamp. As French is an official language, it is not considered unfitting that it should appear on the stamps of the Dominion.

LOWEST TEMPERATURE IN LAST FOUR YEARS.

Winnipeg, Jan. 11.—Fourteen below zero was the temperature recorded here last night, being the lowest in four years and only four times in the last seven years.

By noon the mercury had risen to 21 below. Police Albert reported 18-20 below last night.

THREE CIVIL ACTIONS IN DISTRICT COURT

Justice Taylor dismissed suit of Carnegie Company Against City—Judgment in Action Plaintiff and Defendant in Action Plaintiff First Presbyterian Church.

Justice Taylor yesterday rendered six judgments in three civil actions that had been tried in the District Court. In one he found for the defendants, dismissing the suit brought by the Strathcona Carriage Company against the City of Edmonton. The plaintiff sued to recover judgment for \$170 as damages alleged to have been sustained by reason of a street car striking a horse belonging to the company, April 14, 1917. The evidence showed that the animal was sick and fell near the street car track, and the judge held that the accident was as much due to the contributory negligence of the plaintiff as to any other cause.

Judgment was allowed for both the plaintiff and the defendant in the case of O'Brien vs. Woods, contractors, against the First Presbyterian Church. The plaintiff sued for excavating on the church site, while the defendant pleaded judgment for an equal amount for the plaintiff's failure to deliver saw yards of earth to the city, for damages arising from a pile in of earth which caused the excavation, and for the contractor's delay in finishing the work before the winter of 1916-17 set in.

In the suit of John Petrucci against the Edmonton Iron Works, the judge gave judgment for the plaintiff under the "workmen's compensation" act, the defendant corporation having admitted its liability and paid into court the amount due, covering the claim. The plaintiff, however, lost his action for damages, as the judge found that the men lost, the evidence not being sufficient to show negligence on the part of the defendant.

BUILDERS' EXCHANGE BANQUET

Montreal Contractors Hold Big Banquet—Two Cabinet Ministers Present.

Montreal, Jan. 9.—The banquet of the banquet which was sponsored at the annual banquet of the Builders' Exchange last night was a constructive and interesting one, and was the first of its kind in the city and the nation. There were present two cabinet ministers—the postmaster-general, Hon. Louis L. Pellerin, and Hon. Dr. J. A. A. Macdonald, as well as ex-postmaster-general Rudolph Lemieux, the first named spring being transportation facilities for the wheat harvest and the formation of a Canadian trade union in order to lower the insurance rate on the St. Lawrence river, while Dr. Pellerin deprecated the lifting of the ban on strikes by unions just at the most inopportune time. He also had a fling at the trustees.

There were about 150 guests present at the banquet in the Windsor Hotel, under the presidency of Mr. James J. Ballantyne, with whom at the centre of the table there sat the Hon. Louis L. Pellerin, postmaster-general; Hon. Rudolph Lemieux, ex-postmaster-general; Hon. Dr. J. A. A. Macdonald, speaker of the House of Commons; Mr. H. B. Ames, M.P., Minister of Agriculture, and others.

Mr. James Ballantyne made the opening speech on behalf of the Exchange, referring to the fact that negotiations had been carried on with the architects in regard to a model contract, in which matter an agreement had almost been arrived at, and he hoped this contract would shortly be found in every architect's office. The chairman also made allusion to the hardship suffered by builders in regard to the stone coming in and advocated the raising of the duty and pleaded that some measure of protection should be given the builders against American contractors.

Perhaps you are not using Blue Ribbon Tea, or do not ask for any special tea when ordering. Well, you, next time, tell your grocer to send this Blue Ribbon Tea. We are sure you will like it. But if not, your grocer will refund your money at once.

The Hon. Dr. Pellerin being called upon to propose the toast of Canada, "Building up a great country," said he believed that he was at the head of a great building enterprise, but that dealing with iron and stone and wood, he said that the expenditures which the industry represented, three hundred million dollars last year, meant a great deal for the industrial life of the country, giving employment to hundreds of thousands of laborers, and going along in this vein he expatiated on the riches and resources of the Dominion.

SECURITIES ARE UNHARMED.

Vanite in Equitable Building Are Now Being Opened.
New York, Jan. 11.—Workers began today the work of clearing away the debris and ice which encase the debris in the burned Equitable Life Assurance society building. The various vaults in the structure are still intact and their contents of safe a still dollar in securities are safe. The work of the wreckers was badly hampered by the fact that the building is in such a precarious condition that the walls on two sides may fall at any time. The vaults of the Equitable Life have successfully withstood the flames.

Officers of the security company say there is not a doubt that their three millions in securities are unharmed. It is estimated that the \$6,000,000 on which the Equitable had loaned something between \$75,000,000 and \$100,000,000, were found to be unharmed in the steel boxes in which

BIRKBECK REINSTATEMENT—The meeting of the Alberta Amateur Athletic Association, which was held in Calgary yesterday afternoon, was given by the association, representatives of the press not being invited. The action of the association in refusing to make the meeting public was very unpopular with those interested in the proceedings. No action was given beyond a statement that it did not concern the public. The statement given out for publication at the meeting, taken by the Amateur Association, was that the Birks were given a hockey match—Princeton lost to Harvard by more of a two to one. Clinton defeated Mitchell in intercollegiate O.H.A. hockey game. American papers make exaggerated statements about hockey teams from

Naval Academy team who were utilizing the N.Y.A.C. boat on the ice. And Arthur slipped into a N.Y.A.C. uniform and skated around the ice.

The Naval Academy coach grabbed him right away and pointed out to him a position of left wing where he was to play and showed him how to do it.

Now being his first time on the ice the coach wasn't at all slow to tell him how to make a start.

"Hey, you got that right," he shouted. "What you doing? Don't you know how to play hockey? Say come here, you must."

"Look," said the coach, "the way to play hockey is to be a little wacky."

He followed an exposition of the way to play hockey. "You're a little wacky," said Arthur, "I think you're very much for taking the puck from me and then I'll be back to you."
